

Bryan Knauber *(kuh-na-ber)*

715.566.1941 • HELLO@BRYANKNAUBER.COM

SUMMARY

A creative and curious designer with a passion for both the technical and relational sides of design. Strong skills in HTML, CSS, and graphics programs and the ability to work with people, understand businesses and organizations, and effectively manage projects. I see the big picture.

EXPERIENCE

Samples of my work and links to projects are available at bryanknauber.com.

UI DESIGN, FRONT-END MARKUP, PRODUCT DEVELOPMENT

Instant Automatic

2011–2012

Worked as the designer at a San Francisco-based startup. Helped to define products, designed features conceptually and visually, then worked with the engineering team to implement them into web and mobile applications through HTML, CSS, and Javascript.

FREELANCE WEB + GRAPHIC DESIGN

Bryan Knauber Design, LLC.

2007–present

Manage and create projects from start to finish for more than 30 diverse clients. Successfully manage the finances of the profitable business. Majority of work is from referrals from past satisfied clients. Clients include:

lin6.org

Burnett Dairy Cooperative

Red Rock Radio

Cardinal Accounting & Tax

JB Studios Photography

Antioch Community Church

INSTRUCTOR

Wisconsin Indianhead Technical College

2009–present

Develop and teach classes on technical subjects several times a year. Give students of various skill levels an understanding of software like Adobe Photoshop and OS X.

EDUCATION

THE ART INSTITUTES INTERNATIONAL MINNESOTA

12/2010

Minneapolis, MN — Bachelor of Science degree in Design Management, 3.9 GPA

Web Design and Interactive Media emphasis

VOLUNTEER

Crosswalk Community Church (2009–present) – Part of a conceptual and planning team working toward the launch of a second campus. Designed web and print promotional and branding pieces and managed the purchase of technical equipment.

Frederic Community Drama (2010) – Participated in and helped produce a community production of the musical *Bye Bye Birdie*. Managed social media and advertising campaign that helped make it the most attended event in ten years, planned and research tech and worked with rental companies.
